Port_Mack_Appendix_J_PA_3_5_2010_DEIS_version.docx

Hi Laura,

David Harrison of the Native Village of Eklutna had already notified me that they were interested in participating in the PA, and now they have sent us a formal request from Marc Lamoreaux. I thought you might want to save the e-mail it on Sharepoint.

Thanks,

Rick

Dear Mr. Starzak,

I write to request full involvement for Native Village of Eklutna in consultation for revising and implementing the Programmatic Agreement, and with the DEIS, etc. regarding the Port MacKenzie Extension of the Alaska Railroad

Thank You,

Marc Lamoreaux

Hi David,
I've attached the version that was in the Draft EIS. It was prepared last spring, and we plan to do a major re-organization/simplification as a result of the Oct. 21 meeting. Please let me know if you have trouble opening the Word document, because I can convert it to Adobe PDF if you need it.
Thank you,
Rick

Dear David,

I'm sorry to have missed you at the Oct. 21 meeting to discuss revising the draft Programmatic Agreement for the Port MacKenzie Extension of the Alaska Railroad. At the meeting, we were tasked with putting together an outline for revising the PA. The following points were assembled based on input from Debra Call and Richard Porter, and I wanted to get feedback from you on the level of participation for the Native Village of Eklutna. Please review the points below where KTC is specified, and let me know if and where you would like to be added.

III. Tribal Consultation

No change to the text in Stipulation III, but the draft PTC (Attachment B) should be updated to reflect the level of involvement and specific consultation needs expressed by the Knik Tribal Council and other Tribes and Alaska Native organizations during the recent outreach effort. The PTC should include:

- a. Training of Knik Tribal Council (KTC) and other individuals knowledgeable in Dena'ina history to recognize artifacts
- b. Conducting more interviews to supplement Dena'ina history within the study area
- c. Training of KTC and individuals on how to conduct interviews
- d. Consulting with KTC on National Register eligibility findings related to Dena'ina sites and historic districts along the alignment selected by the STB
- e. Reviewing of Treatment Plans by KTC

VI. Curation

Insert first subsection to provide curatorial assistance to KTC

Please let me know if you have any questions or would like to discuss further. This is just an outline, so we can always work out the details later, but I wanted to make sure you had an opportunity to look this over before it gets distributed back to STB and the SHPO.

Thank you very much,
Rick Starzak
