Transcript:

I'm calling in regards to the Canadian National Railroad. The docket number is 35087. I've lived here all my life. I live on the south side of town. I also drive a school bus. It really is going to affect our whole community. My mom lives on the far south side of town and is elderly, and our family is concerned in the event she needs to get to the hospital. All of our roads that are north and south would be affected by this, and we're not happy with this. OK. I just wanted to make sure that my voice was heard. Thank you. Bye.
