Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

The DEIS is disturbing for many reasons however the biggest problem is the understatement of safety issues. This includes the blocking of 3 intersections simultaneously preventing safety vehicles from travelling to accidents and the hospital. Additionally, the understatement of hazardous material risk is also disappointing. Overall this study seems to be incomplete and inaccurate with possibly damaging consequences to safety in our communities.
