Please provide any comments on the DM&E Powder River Basin Expansion Project Draft EIS.

I would like to ask the STB to redo the entire EIS
on the grounds that the information is incomplete,
inaccurate, bogus, and in cases down right fraudulent.

The planning of this expansion has not taken into account the rights
of the people and communities along the route and also the great
economic loss that people will suffer to say nothing about the loss of
their quality of life for the people who live along or near the expansion.
Communities will be burdened with the expense of safety issues, noise
issues, pollution issues, housing issues and many more issues that may not
have even been considered.

I ask the Board to take a long hard look at the issues I have
raised and redo the EIS and do a complete job on the EIS and I'm
sure that you will see that the only one that will benefit
from this is the DM&E and a few companies that do the construction on
the expansion.

Thank you
