STB DOCKET NO.: 42068

VERIFIED REBUTTAL STATEMENT OF TOM MUELLER
CAPITOL MATERIALS, INCORPORATED DULUTH FACILITY

My name is Tom Mueller. I previously sponsored a Verified Statement and Supplemental Verified Statement in this proceeding as part of the initial presentation made on behalf of Capitol Materials, Inc. Since the submission of those statements, I have reviewed Verified Statements submitted by Norfolk Southern Railway Company ("Norfolk Southern").

My purpose in submitting this Verified Rebuttal Statement is to comment specifically upon those matters of fact advanced by each of Norfolk Southern's Affiants and to submit evidence responsive to the representations set forth in those Verified Statements.

I have knowledge of the factual matters which are set forth in this statement and know the same are true as stated.

I.

In my previously filed Verified Statement and Supplemental Verified Statement, I provided examples demonstrating that the demurrage claims of Norfolk Southern are not the result of any inability of Capitol to timely unload and release rail cars, but instead are the result of problems in Norfolk Southern's rail service to Capitol. I provided examples where Norfolk Southern constructively placed rail cars although slots were available at Capitol's siding. I also provided examples of instances where Norfolk Southern performed "half-switches" that is, where Norfolk Southern pulled empty rail cars but failed to spot loaded rail

Public Record

cars, despite the fact that loaded rail cars had been constructively placed by Norfolk Southern.

I also provided examples where Capitol had released rail cars but Norfolk Southern had failed to pick them up and Norfolk Southern had run recently delivered rail cars around previously delivered rail cars and had issued Constructive Placement Notices on all rail cars as a matter of course.

Norfolk Southern has failed to dispute or deny or in any way respond to any of the examples I provided. Each of these examples was taken from Norfolk Southern's bills and documents transmitted to us in support of those bills.

Norfolk Southern argues instead that it need not respond to these examples because Capitol never submitted a written claim for demurrage relief. However, Norfolk Southern admits receiving notice of Capitol's complaints about its service and each of the examples provided to this Board were taken from Norfolk Southern's own bills. The errors and inconsistencies in these bills, as well as the poor service provided by Norfolk Southern, form the basis for Capitol's refusal to pay.

The quality of Norfolk Southern's service has been deteriorating since 1997, when Norfolk Southern first began to impose demurrage charges based on an alleged average agreement. For example, on January 23, 1998, two rail cars arrived at Norfolk Southern's yard, two rail cars were constructively placed and Capitol released one rail car. Regardless, Norfolk Southern failed to spot the loaded rail cars or pick up the released (empty) rail cars. Norfolk Southern has also failed to take into consideration the impact this failure to make daily switches has on the assessment of demurrage charges.

Attached hereto as Exhibits 1, 2, 3, and 4 are reports I have made based on Norfolk Southern's own bills which show that in 1997, Norfolk Southern missed eleven switches; in 1998, Norfolk Southern missed twenty-two switches; in 2000, Norfolk Southern missed twenty-three switches, and in 2001, Norfolk Southern missed eight switches. These numbers exclude weekends and holidays. Although it is impossible to determine the ripple effect these missed switches, occurring arbitrarily throughout the year, have had on the demurrage days Norfolk Southern alleges occurred, it is certain that these missed switches were not the fault of Capitol and Capitol should not be penalized for the demurrage charges which resulted from them.

In addition, attached hereto as Exhibits 5, 6, 7 and 8 are reports I made from Norfolk Southern's own bills showing those instances where Norfolk Southern failed to record constructive placement dates, actual placement dates and release dates for rail cars on which it assessed Capitol demurrage despite the fact that in its Reply Statement, Norfolk Southern states that the demurrage clock starts running when a rail car is either constructively placed or actually placed.

However, in its own bills, these key dates are often missing, preventing an accurate assessment of demurrage charges even assuming that Capitol was the cause of the delay in unloading or spotting rail cars. For example, in 1997, there was no indication of a constructive placement date for twenty-six rail cars; in 1998, there was no indication of a constructive placement date for twenty-three rail cars; in 2000, there was no indication of a constructive placement date for forty-one rail cars; and in 2001, there was no indication of a constructive placement date for twenty-six rail cars.

Further, and contrary to the statements made by Norfolk Southern's Affiants, we routinely receive Constructive Placement Notices as a matter of course for each and every rail car we receive from Norfolk Southern. The issuance of these notices has nothing to do with the space available at Capitol's Duluth yard.

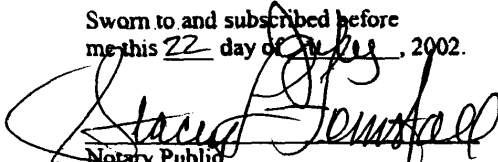

Norfolk Southern admits that constructive placement can be utilized only in instances where, according to the Norfolk Southern tariff, a condition exists attributable to the consignee, that is, Capitol. Here, Norfolk Southern has not made any such assertion that Capitol created any condition that would trigger constructive placement on each and every rail car arriving in Norfolk Southern's yard.

STATE OF GEORGIA
COUNTY OF GWINNETT

TOM MUELLER, being duly sworn, deposes and says that he has read the foregoing statement,
knows the facts asserted there are true and that the same are true as stated.

Tom Mueller

Sworn to and subscribed before
me this 22 day of July, 2002.
