FINANCE DOCKET NO. AB 355 (Sub No. 28X)

SPRINGFIELD TERMINAL RAILWAY COMPANY
-DISCONTINUANCE OF SERVICE-
MANCHESTER AND LAWRENCE BRANCH
ESSEX COUNTY, MASSACHUSETTS AND
ROCKINGHAM AND HILLSBOROUGH COUNTIES, NEW HAMPSHIRE

VERIFIED NOTICE OF EXEMPTION

Springfield Terminal Railway Company ("ST") files this Notice of Exemption pursuant to the Board's regulations at 49 C.F.R. §1152.50. This Notice of Exemption seeks to discontinue service by ST on portions of a line of railroad known as the Manchester and Lawrence Branch (the "Line") in Essex County, Massachusetts and Rockingham and Hillsborough Counties, New Hampshire.¹ The first portion of the Line to be discontinued extends from railroad milepost 1.40 to milepost 7.6 ("Segment 1"). The second portion of the Line to be discontinued extends from milepost 20.93 to milepost 26.70 ("Segment 2") (collectively the "Segments"). In accordance with the aforesaid regulations, ST makes the following responses:

RESPONSE TO 49 C.F.R. SECTION 1152.50(d)(2):

1. Proposed Consummation Date.

The proposed consummation date of this abandonment and discontinuance is June 18, 2003.

2. Certification Required in Section 1152.50(b).

The required certification is set forth as Exhibit B to this Notice of Exemption.

¹ ST acquired its leasehold interests in the Segments from the Boston and Maine Corporation (the "B&M"), an affiliate of ST, as a part of a large-scale effort to improve the efficiency of railroad operations in the late 1980's. See Finance Docket No. 30965; Delaware and Hudson Railway Company – Lease and Trackage Rights Exemption – Springfield Terminal Railway Company, Decided February 17, 1988. The Line remained under B&M ownership while being operated by ST until the B&M obtained approval to abandon the Segments in three separate abandonment proceedings. Docket No. AB 32 (Sub No. 90), Decided October 2, 2001; Docket No. AB 32 (Sub No. 88X), Decided May 25, 2000 and Docket No. AB 32 (Sub No. 87X), Decided June 25, 1999. At that time, it was assumed that the abandonment of the B&M's common carrier rights and obligations would similarly discontinue the ST leasehold interests because ST's rights and obligations flowed from the original leases granted by the B&M. As a result of this assumption, and a need to conserve limited resources, proceedings were instituted to abandon the B&M interests only and the ST leases were presumed to have terminated with consummation of the B&M abandonments. However, following the Mystic Wharf Branch abandonment proceeding by the B&M, it became apparent that the safe course of action would be to discontinue ST's leasehold interests in the Segments as well. See Boston & Maine Corporation – Abandonment and Discontinuance of Service – Suffolk County, Massachusetts, Docket No. AB-32 (Sub No. 92). See also Springfield Terminal Railway Company – Discontinuance of Service – Portion of Bemis Branch, Middlesex County, Massachusetts, Docket No. 355 (Sub No. 27X).

3. Information required in Section 1152.22(a)(1-4), (7), (8) and (e)(4).

(a) General.

(1) Exact name of applicant.

Springfield Terminal Railway Company

(2) Whether applicant is a common carrier by railroad subject to the Interstate Commerce Act.

ST is a common carrier by railroad subject to the Interstate Commerce Act.

(3) Relief sought.

ST seeks to discontinue service over the line.

(4) Detailed map of the line.

Map is attached hereto as Exhibit A

(7) Name, title and address of representative of applicant to whom correspondence should be sent.

Katherine E. Potter, Esq.
Springfield Terminal Railway Company
Iron Horse Park
North Billerica, MA 01862

(8) United States Postal Service Zip Codes that the line traverses.

Zip Codes 01840, 01841, 01843, 01844, 03079, 03101, 03103, and 03053.

(e) Rural and community impact.

(4) Statement of whether the properties proposed to be abandoned are suitable for use for other public purposes, including roads or highways, other forms of mass transportation, conservation, energy production or transmission, or recreation. If the applicant is aware of any restriction on the title to the property, including any reversionary interest, which would affect the transfer of

title or the use of property for other than rail purposes, this shall be disclosed.

ST is unsure about the suitability of the Line for public non-rail purposes. Prior to the effective date of this discontinuance, title to the Line was or will be acquired by third parties.

4. The Level of Labor Protection.

ST understands that, in exempting the proposed discontinuance, the Board does not relieve a carrier of its statutory obligation to protect the interests of employees. See 49 C.F.R. Section 1152.50(c). Accordingly, ST anticipates that the Board will impose the conditions set forth in Oregon Short Line R. Co. – Abandonment – Goshen, 360 I.C.C. 91 (1979), for the benefit of employees who may be adversely affected by the proposed abandonment and discontinuance.

5. Certificate of Compliance with the Notice Requirements of Section 1152.50(d)(1).

The required certificate is set forth as Exhibit C to this Notice of Exemption.

6. Environmental Report and Historic Report.

The Environmental/Historical Report required by 49 C.F.R. 1105.7 and 1105.8 is attached as Exhibit D to this Notice of Exemption. Attached, as Exhibit E, is a certificate affirming ST's compliance with 49 C.F.R. 1105.11.

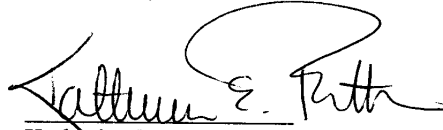

7. Newspaper Notice.

The Newspaper Notice required by 49 C.F.R. 1105.12 was published in the *Boston Globe* and the *Union Leader* on April 23, 2003. An affidavit of publication from the *Boston Globe* is attached as Exhibit F. An affidavit from the *Union Leader* will be forwarded to the Board as soon as it is received by ST and will be labeled Exhibit F-2.

8. Verification

The required verification is set forth as Exhibit G to this Notice of Exemption.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Katherine E. Potter", written over a horizontal line.

Dated: April 29, 2003

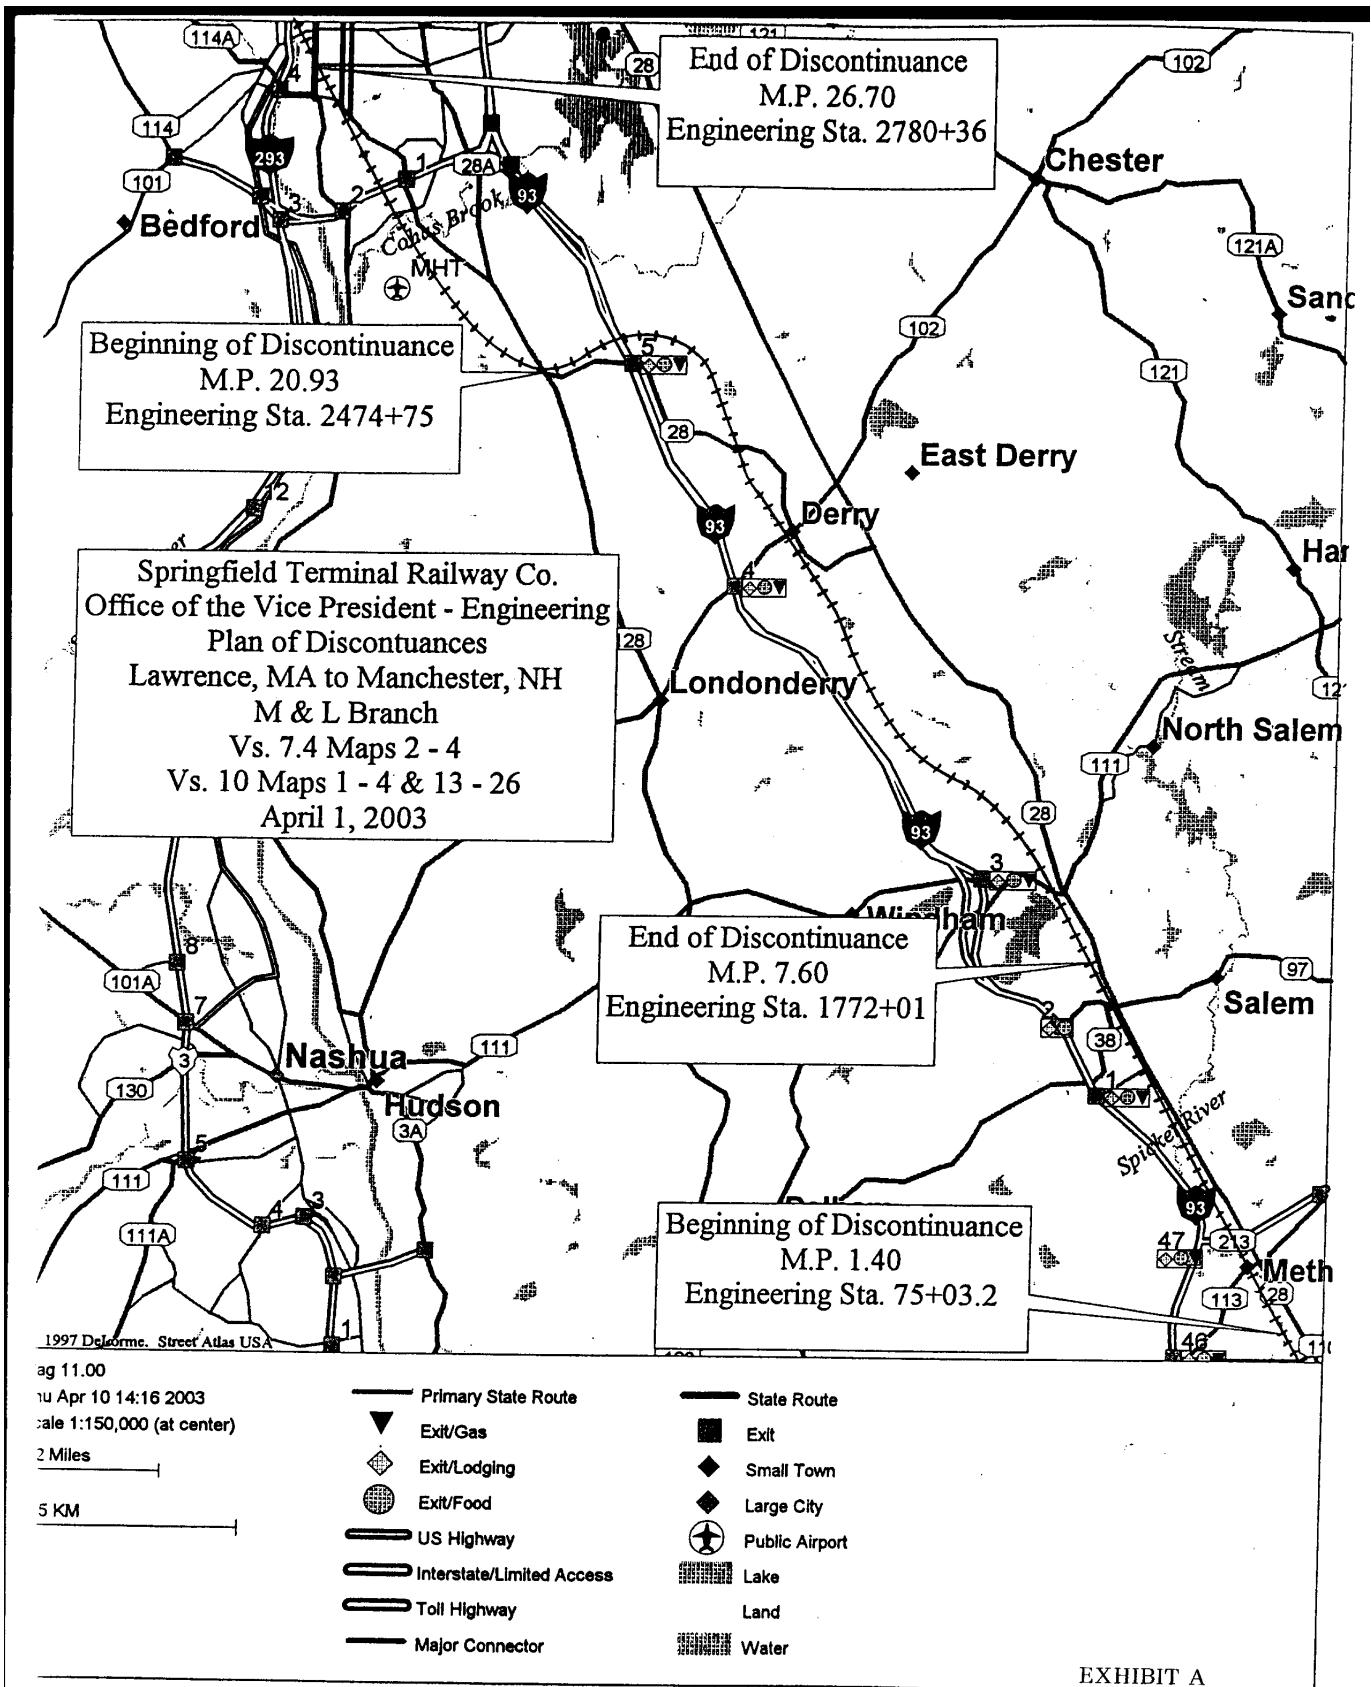

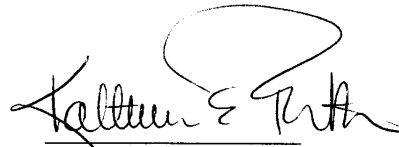

EXHIBIT B

CERTIFICATION REQUIRED

IN 49 C.F.R. SECTION 1152.50(b)

In accordance with 49 C.F.R. Section 1152.50(b), I hereby certify that, with respect to the line subject of the Notice of Exemption in Docket No. AB 355 (Sub. No. 28X): (1) no local traffic has moved over the line for at least two years prior to the date hereof; and (2) there is no overhead traffic on the line; and (3) no formal complaint filed by a user of rail service on the line (or state or local agency acting on behalf of such user) regarding cessation of service over the line is either pending with the Board or any U.S. District court or has been decided in favor of a complainant within the two-year period prior to the date hereof. The foregoing certification is made on behalf of Springfield Terminal Railway Company by the undersigned after due and careful investigation of the matters herein certified and based on the best knowledge, information and belief of the undersigned.

Katherine E. Potter

Dated: April 29, 2003

EXHIBIT C

CERTIFICATE OF COMPLIANCE WITH
NOTICE REQUIREMENTS OF
49 C.F.R. 1152.50 (d)(1)

In accordance with 49 C.F.R. Section 1152.50(d)(2), I hereby certify that:

On April 8, 2003, I caused to be served by U.S. first-class mail, postage pre-paid, the notice required by 49 C.F.R. Section 1152.50(d)(1), upon:

Re: **Springfield Terminal Railway Company - Abandonment and Discontinuance
of Service - Over Manchester and Lawrence Branch -
Essex County, Massachusetts and Rockingham and
Hillsborough Counties, New Hampshire
Docket No. AB 355 (Sub No. 28X)**

Ladies and Gentlemen:

In accordance with the Surface Transportation Board's regulations at 49 CFR § 1152.50(d)(1), Springfield Terminal Railway Company hereby gives notice that on or about April 22, 2003 it intends to file with the Surface Transportation Board, Washington, D.C. 20423 a Notice of Exemption. Said Notice will seek permission for the abandonment and discontinuance of service on a line of railroad known as the Manchester and Lawrence Branch (the "Line") in Essex County, Massachusetts and Rockingham and Hillsborough Counties, New Hampshire. The Line extends from railroad milepost 1.40 to milepost 26.70, which traverses through United States Postal Service ZIP Codes 01840, 01841, 01843, 01844, 03079, 03101, 03103, 03053, a distance of 25.3 miles. A map depicting the Line is attached. If permitted by the Board, the exempt procedure permitted by Subpart F of 49 CFR § 1152 will be used.

Based on information in our possession, the Line does not contain federally granted rights-of-way. Any documentation in the railroad's possession will be made available promptly to those requesting such documentation.

Sincerely,

Katherine E. Potter
Staff Attorney

MANCHESTER AND LAWRENCE BRANCH

ENVIRONMENTAL/HISTORICAL REPORT

Docket No. AB 355 (Sub No. 28X)

I. ENVIRONMENTAL REPORT

The following information is provided in accordance with 49 C.F.R. § 1105.7 (e):

(1) Proposed Action and Alternatives

Springfield Terminal Railway Company ("ST") proposes to discontinue its operation on portions of a line of railroad known as the Manchester and Lawrence Branch (the "Line") in Essex County, Massachusetts and Rockingham and Hillsborough Counties, New Hampshire. The first portion of the Line over which service is to be discontinued extends from railroad milepost 1.40 to milepost 7.6 ("Segment 1"). The second portion of the Line over which service is to be discontinued extends from milepost 20.93 to milepost 26.70 ("Segment 2"). A map of the proposed discontinuance is attached.

ST acquired its leasehold interests in these portions of the Line from the Boston and Maine Corporation (the "B&M"), an affiliate of ST, in 1988 pursuant to a decision by the Interstate Commerce Commission.¹ The B&M subsequently abandoned these portions of the Line in three separate abandonment proceedings.² When the B&M filed its abandonment applications, the relevant parties were notified of the proceedings and were provided the opportunity to

¹ Finance Docket No. 30965; Delaware and Hudson Railway Company – Lease and Trackage Rights Exemption – Springfield Terminal Railway Company, Decided February 17, 1988.

² Docket No. AB 32 (Sub No. 90), Decided October 2, 2001; Docket No. AB 32 (Sub No. 88X), Decided May 25, 2000 and Docket No. AB 32 (Sub No. 87X), Decided June 25, 1999.

participate in the drafting of the Environmental/Historical Reports for these locations. In preparation for this filing, ST notified the relevant parties and afforded them an opportunity to provide any comments in addition to or in lieu of those that were previously provided to the B&M.

For purposes of this filing, ST intends to use an Environmental/Historical Report similar to those filed by the B&M in its abandonment proceeding. This proceeding arises from the same location and the Environmental/Historical Report will encompass the responses previously provided to the B&M, which are now a part of the abandonment application that has already been approved by the Board.

The B&M abandoned the Line due to its historical and continuing decrease in traffic. Since there has been no traffic on the Line in at least two (2) years, ST sees no reasonable alternative to the discontinuance of service.

ST attaches to this Environmental/Historical Report as an Appendix all correspondence received from federal, state and local authorities and agencies regarding the abandonments by B&M at these locations that were originally provided in response to the B&M's requests for comments. This Environmental/Historical Report is based upon the information provided in those responses.

(2) **Transportation System**

There will be no substantial effect on existing regional or local transportation systems or patterns.

There is no passenger or freight traffic on the Line. Any traffic previously moving on the Line was rerouted approximately two years ago. The B&M has previously abandoned this Line in three separate proceedings as described above.

(3) **Land Use**

(i) Based on available information, the proposed action will have no adverse effect on local land use plans.

(ii) Based on available information, the proposed action will have no effect on any prime agricultural land.

(iii) This Environmental/Historical Report serves as actual notice of this proposal in accordance with 49 C.F.R. § 1105.9.

(iv) Applicant is unsure whether the right-of-way is suitable for alternative public use under 49 U.S.C. 10906.

(4) **Energy**

(i) The transportation of energy resources will not be affected by the proposed action.

(ii) The proposed action will have no effect on the movement and/or recovery of recyclable commodities.

(iii) The proposed action will increase overall energy efficiency in that it will allow ST to eliminate any potential responsibility for costly and energy-consuming maintenance operations for an unused portion of railroad line.

(iv) The proposed action will not cause a diversion from rail to motor carrier in excess of the threshold levels set forth at § 1105.7 (e)(4)(iv)(A) or (B).

(5) **Air**

The proposed action will not result in any of the increases set forth at § 1105.7 (e)(5).

(6) **Noise**

The proposed action will not result in or exceed any of the thresholds set forth at § 1105.7 (e)(6).

(7) **Safety**

- (i) The proposed action will have no adverse effect on public health and safety.
- (ii) No hazardous materials will be diverted to highway transportation.
- (iii) No known hazardous waste sites or spills exist on the Line.

(8) **Biological Resources**

- (i) Based on available information, the proposed action will have no affect on endangered or threatened species or critical habitats.
- (ii) No national or state parks or forests will be affected by the proposed action.

(9) **Water**

- (i) ST is not contemplating any action inconsistent with federal, state and/or local water quality standards.
- (ii) ST does not believe the proposed action will require any permits under § 404 of the Clean Water Act. No designated wetlands or 100-year flood plains will be affected by the proposed action.
- (iii) Permits under § 402 of the Clean Water Act are not required for the proposed action.

(10) **Proposed Mitigation**

Because no adverse environmental impacts are expected to result from the proposed action, no mitigation will be needed or is planned.

(11) **Additional Information for Rail Constructions**

The proposed action is not a rail construction proposal, so this section does not apply.

II. HISTORIC REPORT

The following information is provided in accordance with 49 C.F.R.
§ 1105.8 (d):

(1) Maps

The United States Department of the Interior Geological Survey topographic map is attached hereto identifying the location of the proposed action.

(2) Description of Right-of-Way

Segment 1 is approximately 6.2 miles in length and Segment 2 is approximately 5.37 miles in length. The property lines vary in width from approximately 20 feet wide to approximately 110 feet wide. The attached topographic map indicates the Line's topography.

(3) Photographs of Railroad Structures

Photographs of the railroad structures located on the property that are at least 50 years old and of the surrounding area are attached.

(4) Construction Dates

The railroad structures located between milepost 1.4 and milepost 4.4 were constructed as follows: (i) bridge #2.80 and iron stringer was built in 1901; (ii) bridge #2.81, a double stone arch, has an unknown build date; (iii) bridge #2.82 and iron stringer was built in 1894; and (iv) bridge #3.13, a frame trestle, was built in 1925. No known major alterations were made to bridges #2.80, #2.81 or #2.82. Alterations were made to bridge #3.13 in 1966 with installation of new bents in front of abutments. In 1975, this structure was damaged by fire.

The railroad structure located between milepost 4.65 and milepost 7.6 in Salem, New Hampshire was constructed in or about 1917. ST is not aware of any major alterations to this structure.

(5) **History of Operations**

The Line was constructed in the late 1850's. Portions of the Line were acquired in the late 1840's and early 1850's with location rights in other areas. The remainder of the right-of-way was acquired in the early 1900's. The Line historically served as part of a local system of branch lines. No local or overhead traffic has moved over the Line in at least two years.

(6) **Summary of Useful Documents**

ST possesses standard valuation maps of all portions of the Line, which indicate any and all culverts, bridges, and other structures that may exist.

(7) **Opinion as to Historical Significance**

ST is unable to form an opinion as to the historical significance of the Line or the structures thereon. However, the B&M, in its abandonment applications, made written requests for comments from the Massachusetts Historical Commission and the New Hampshire Division of Historical Resources/State Historic Preservation Office.

The New Hampshire Division of Historical Resources responded on May 27, 1999 and July 8, 1999 and advised that "there are no known properties of architectural, historical, archaeological, engineering or cultural significance within this area."

The B&M also received comment from the Massachusetts Historical Commission on April 20, 2001 regarding the anticipated effect of the proposed

action and was informed that the Line traverses the Searles Tenney Nevins Local Historic District in the Town of Methuen, MA. The Massachusetts Historical Commission did not offer any comments other than to request that they be informed if any future work is proposed for the Line.

(8) **Description of Prior Subsurface Disturbance**

ST knows of no prior subsurface ground disturbance or fill, or environmental conditions that might affect the archeological recovery of resources and the surrounding terrain.

III. CERTIFICATE OF SERVICE

This certifies that the Applicant will serve copies of this Environmental/Historical Report upon and, prior to such service, consulted, or attempted to consult, with parties identified on the attached Service List:

This also certifies that the Applicant will serve a copy of this Environmental/Historical Report upon the Massachusetts Office of Coastal Zone Management providing actual notice of the proposal in accordance with 49 C.F.R. § 1105.9.

A handwritten signature in black ink, appearing to read "Katherine E. Potter", written over a horizontal line.

Re: **AB 355 (Sub No. 28X)
Springfield Terminal Railway Company-- Abandonment and
Discontinuance of Service -- Manchester and Lawrence Branch --
Essex County, Massachusetts and Rockingham and
Hillsborough Counties, New Hampshire**

Ladies and Gentlemen:

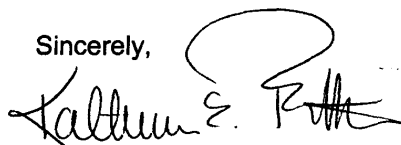

On or about April 22, 2003, Springfield Terminal Railway ("ST") will file a notice with the Surface Transportation Board ("STB") seeking an exemption for the abandonment and discontinuance of service over approximately 25.3 miles of railroad known as the Manchester and Lawrence Branch between milepost 1.40 and milepost 26.70. The segment is located in Essex County, Massachusetts and Rockingham and Hillsborough Counties, New Hampshire. Between June 1999 and June 2001, the Boston & Maine Corporation (the "B&M"), an affiliate of ST, filed similar applications with the STB for the same line. As a result of those applications, you were notified and provided the opportunity to participate in the drafting of the Environmental/Historical Report for this location. For purposes of this filing, ST intends to use a similar Environmental/Historical Report, as it is the same location, which encompasses the responses you previously provided and is part of the B&M applications that have been previously approved by the STB.

However, should you have any additional comments, attached please find the Environmental/Historical Report describing the proposed action and any expected environmental/historical effects as well as a map of the affected area. We are providing this report so that you may review the information that will form the basis for the STB's independent environmental analysis of this proceeding. If any of the information is misleading or incorrect, if you believe that pertinent information is missing, or if you have any questions about STB's environmental review process, please contact the Section of Environmental Analysis (SEA), 1925 K Street, NW, Washington, DC 20423, telephone (202) 565-1526 and refer to the above docket number. Because the applicable statutes and regulations

impose stringent deadlines for processing this action, your written comments to SEA would be appreciated within three (3) weeks. Additionally, please provide a copy of any comments to the undersigned at the above address.

Your comments will be considered by STB in evaluating the environmental/historical preservation impacts of the contemplated action. If there are any questions concerning this proposal, please contact the undersigned at (978) 663-1215 or by mail at the above address.

Sincerely,

A handwritten signature in black ink, appearing to read "Katherine E. Potter", with a large, stylized loop at the end.

Re: **Abandonment and Discontinuance of Service
over Portion of Manchester and Lawrence Branch
AB 32 (Sub No. 87X)**

Ladies and Gentlemen:

The Boston and Maine Corporation intends to file a Notice of Exemption with the Surface Transportation Board regarding the abandonment of an approximate 5.78 mile segment line of railroad known as the Manchester and Lawrence Branch in Londonderry and Manchester, New Hampshire. A map depicting the portion of the line to be abandoned is attached.

In connection with the ~~Petition~~ or Notice, federal regulations at 49 CFR §1105.7 and §1105.8 require that we prepare an Environmental/Historical Report after consulting with an gathering information from your office regarding the anticipated impact of the proposed action on environmental and historical resources. Your input is welcome. Because time is of the essence, kindly forward any comments and any relevant information to me at your earliest convenience, and in any event, no later than three weeks from receipt of this letter.

If you know of no adverse effect that the proposed abandonment and discontinuance of service will have, and/or do not object to the proposed action, I would appreciate your so notifying me in writing. Upon completion, I will send to your office a copy of the Environmental/Historical Report for review and comment.

Thank you for your cooperation. If you have any questions, please do not hesitate to call.

Sincerely,

Robert B. Culliford

Re: **Abandonment and Discontinuance of Service
over Lower Portion of Manchester and Lawrence Branch
AB 32 (Sub No. 88X)**

Ladies and Gentlemen:

On April 16, 1999 the Boston and Maine Corporation gave notice of its intention to file a Notice of Exemption with the Surface Transportation Board regarding the abandonment of an approximate 2.95 mile segment line of railroad known as the Manchester and Lawrence Branch in Salem, New Hampshire. However, due to the discovery of new information relating to this portion of the line, the B&M must now provide revised notice to your office of the intention of the B&M to file a Petition for Exemption with the Board.

In connection with the Petition for Exemption, federal regulations at 49 CFR §1105.7 and §1105.8 require that we prepare an Environmental/Historical Report after consulting with and gathering information from your office regarding the anticipated impact of the proposed action on environmental and historical resources. We have received your initial response, and it is not expected that this response will need to be supplemented for the present filing. However, if you would like to review your initial response for changes that may have occurred you are welcome to do so.

Kindly forward any changes to your initial response and any other relevant information to me at your earliest convenience, and in any event, no later than three weeks from receipt of this letter.

Thank you for your cooperation. If you have any questions, please do not hesitate to call.

Sincerely,

Robert B. Culliford (Signature)

Re: **Abandonment and Discontinuance of Service
over the Manchester and Lawrence Branch
AB 32 (Sub No. 90)**

Ladies and Gentlemen:

The Boston and Maine Corporation filed a Notice of Intent with the Surface Transportation Board regarding the abandonment of an approximate 3.0 mile segment line of railroad known as the Manchester and Lawrence Branch in Lawrence, Massachusetts and Salem, New Hampshire. A map depicting the portion of the line to be abandoned is attached.

In connection with the Notice, federal regulations at 49 CFR §1105.7 and §1105.8 require that we consult with and gather information from your office regarding the anticipated impact of the proposed action on environmental and historical resources. Your input is welcome. Because time is of the essence, kindly forward any comments and any relevant information to me, via facsimile at (978) 663-1213, at your earliest convenience.

If you know of no adverse effect that the proposed abandonment and discontinuance of service will have, and/or do not object to the proposed action, I would appreciate your so notifying me in writing. Upon completion, I will send to your office a copy of the Environmental/Historical Report for review and comment.

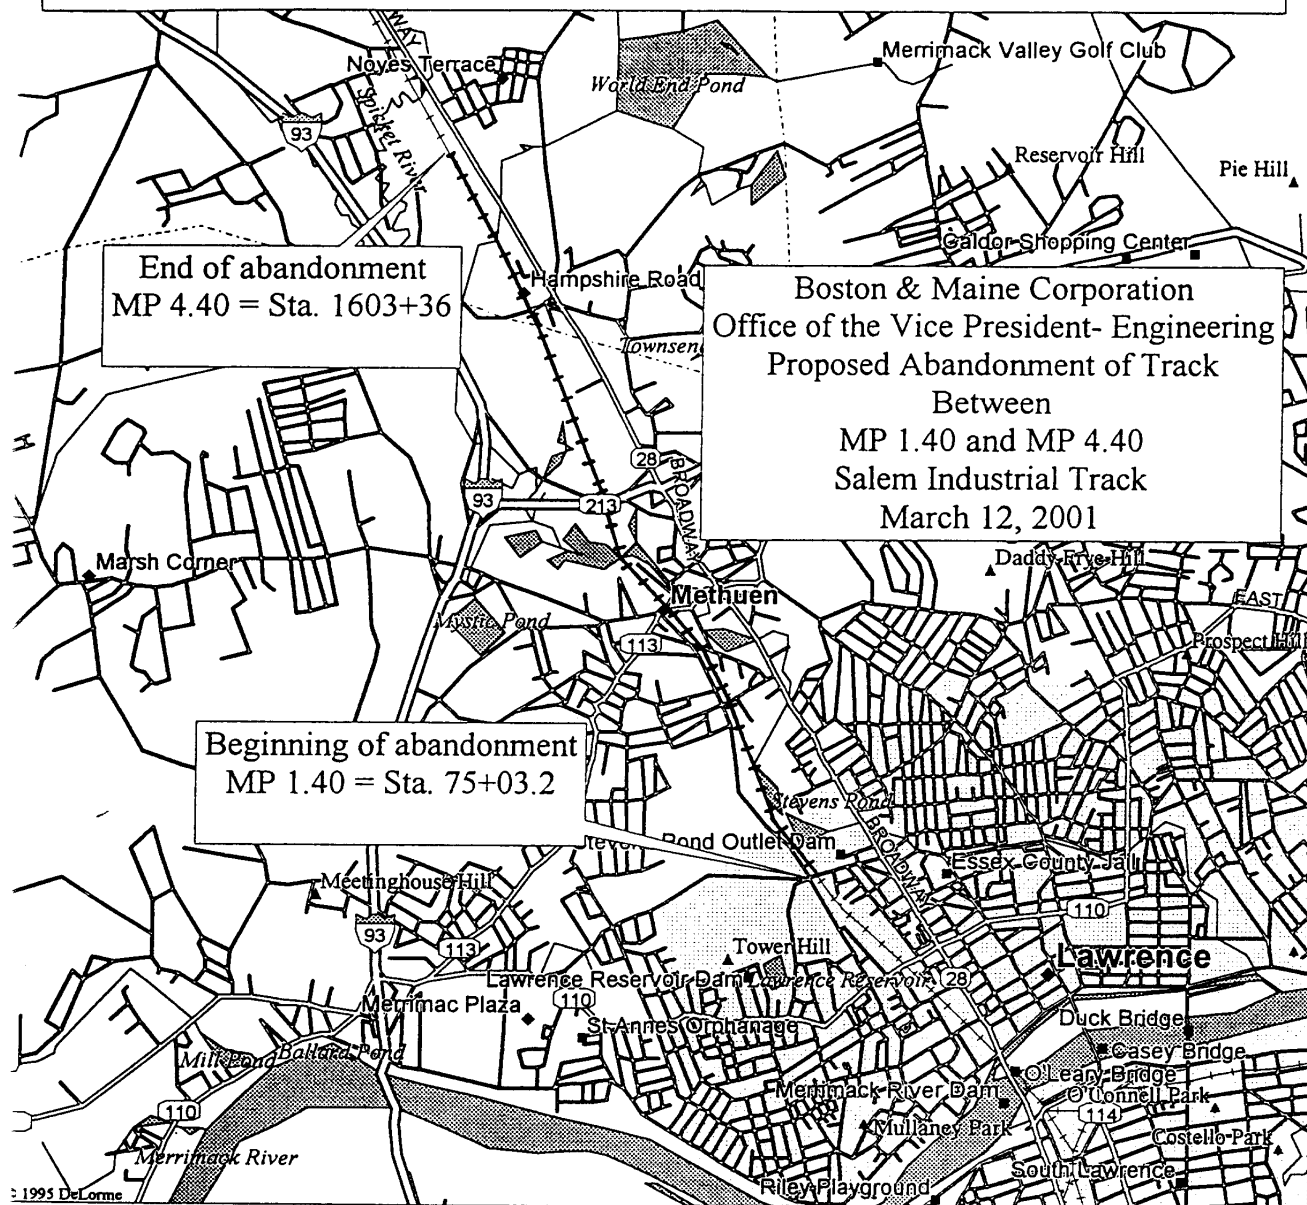

Thank you for your cooperation. If you have any questions, please do not hesitate to call.

Sincerely,

Robert B. Culliford
Corporate Counsel

RE: ABANDONMENT AND DISCONTINUANCE
OF SERVICE OVER A PORTION OF MANCHESTER
AND LAWRENCE BRANCH AB 32 (Sub. No. 87X)

Dear Mr. Culliford:

In response to your recent request, the New Hampshire Department of Environmental Services ("DES") has completed its review of selected databases that overlay the portion of railroad right-of-way that is noted above. **Please note: The information provided by this transmittal does not represent a due diligence review by DES for the proposed action by Guilford Rail System.** It does however, provide you with a starting point at which to check your files and compare them with any known or suspected environmental issues that may have been associated with the subject section of rail right-of-way.

I have provided a GIS map and accompanying list of sites. From the map, you can see that there appears to be a cluster of DES-regulated facilities just to the west of the Manchester Airport. Little Cohas Brook has been the subject of intensive study of late related to a proposed new airport access road. From the list provided, I would suggest that you scan the specific facilities which may be affected by the abandonment process. If a site or sites emerge of particular concern, please schedule a file review with Allisen Heath of our Oil Remediation and Compliance Bureau or with Ariel Parent of our Waste Management Division. Their telephone number is (603) 271-2900.

If you should need anything additional from me, please contact me at (603) 271-3306, or via E-mail at t_drew@des.state.nh.us. Thank you.

Sincerely,

Timothy W. Drew

RE: Abandonment & Discontinuance of Service
Londonderry and Manchester, NH
AB 32 (Sub No. 87X)

April 14, 1999

Robert B. Culliford
Boston & Maine Corporation
Iron Horse Park
No. Billerica, MA 01862

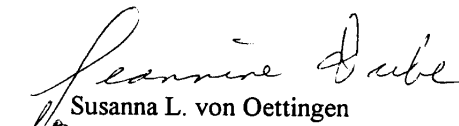

Dear Mr. Culliford:

I have reviewed your request for information on endangered and threatened species and their habitats for the above-referenced project. My comments are provided in accordance with Section 7 of the Endangered Species Act (ESA) of 1973, as amended (16 U.S.C. 1531-1543).

Based on the project description and location, it appears that no impacts to federally-listed species will occur. Should project plans change, or if additional information on the distribution of listed or proposed species becomes available, this determination may be reconsidered.

Thank you for your cooperation and please call me at 603-225-1411 if I can be of further assistance.

Sincerely yours,

Susanna L. von Oettingen
Endangered Species Specialist
New England Field Office

RE: Abandonment and Discontinuance of Service over Portion of Manchester and Lawrence
Branch
AB 32 (Sub. No. 87x)

Dear Mr. Culliford:

In accordance with the National Historic Preservation Act of 1966 (P.L. 89-655), as amended, and as implemented by regulations of the Federal Advisory Council on Historic Preservation ("36 CFR Part 800: Protection of Historic Properties"), the New Hampshire Division of Historical Resources/State Historic Preservation Office has reviewed the undertaking referenced above to identify potential effects on properties listed, or potentially eligible for listing, in the National Register of Historic Places.

We are responding to your letter of April 27, 1999 concerning the above mentioned project as well as the FAX with map sent by Pam Primeau on May 20, 1999. We have no record of the March 19th letter you mention in your April correspondence. All projects are logged upon receipt, and there is no record of this project until April 27.

We understand that the Manchester Airport will be acquiring a portion of this line for their runway expansion and have already removed rails and ties in anticipation of their use. Although we did not comment specifically on the realignment of Kelly Avenue along the "abandoned railroad right-of-way", we were among the agencies required to review the Manchester Airport Master Plan and we did approve the Draft Environmental Impact Statement for the Master Plan update in 1997. Subsequently a draft historic context for New Hampshire railroads has been prepared by R. Stuart Wallace under contract to the NH Department of Transportation. It provides sufficient documentation to assume that this segment of Manchester and Lawrence Branch is not eligible for the National Register of Historic Places.

Therefore, based upon the information currently available, it has been determined that there are no known properties of architectural, historical, archaeological, engineering, or cultural

significance within the area of the undertaking's potential impact and no identification or evaluative studies are recommended.

If any other resources are discovered or affected as a result of project planning or implementation, the Division of Historical Resources is to be consulted on the need for appropriate evaluative studies, determinations of National Register eligibility, and mitigative measures (redesign, resource protection, or data recovery) as required by federal law and regulations.

For the purpose of compliance with the Advisory Council on Historic Preservation procedures (36 CFR 800), I request that this determination be construed as a finding of "No Resources Present".

Sincerely,

Nancy C. Dutton

Nancy C. Dutton, Director
State Historic Preservation Officer

Mr. Robert B. Culliford
Law Department
Guilford Transportation Industry
Iron Horse Park
North Billerica, Massachusetts 01862

Dear Mr. Culliford:

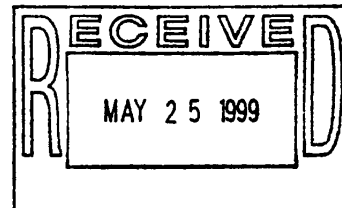

This is in regards to the proposed abandonment and discontinuance of service over portions of the Manchester and Lawrence Branch, as defined in AB 32 (Sub No. 87x) and AB 32 (Sub No. 88x).

The Military Traffic Management Command Transportation Engineering Agency, through the Railroads for National Defense Program, is the Department of Defense agent for analyzing railroad abandonments, bankruptcies, and mergers for impact to National Defense. We have received and reviewed AB 32 (Sub No. 87x) and AB 32 (Sub No. 88x) and have determined these abandonments do not impact a defense designated rail line. Therefore, we have no objection, if Guilford Transportation Industry proceeds with these abandonments.

Should you have any questions, please feel free to contact me at (757) 599-1163. Your efforts on behalf of national defense are appreciated.

Sincerely,

Robert S. Korpanty, P.E.
Senior Engineer, Railroads for
National Defense Program

No. Billerica, MA 01862

Dear Mr. Culliford,

This is to inform you that we have reviewed your proposal as outlined in your letter to the Corps on June 14, 1999. In that proposal you requested the Corps to determine if a Corps permit would be required to abandon a 5.78-mile section of railroad located in Londonderry and Manchester, New Hampshire.

Based on the information you have provided, we have determined that a Department of the Army permit is not required for the work as described in your proposal. Our regulatory jurisdiction encompasses all work in or affecting navigable waters of the United States under Section 10 of the Rivers and Harbors Act of 1899 and the discharge of dredged or fill material into all waters of the United States, including adjacent wetlands, under Section 404 of the Clean Water Act. Since no work in or affecting navigable water will occur; and/or no fill will be placed in waters or wetlands, a Department of the Army permit is not required.

If you have any questions, please contact us at, 1-800-343-4789 or, if you are in Massachusetts, call 1-800-362-4367.

Sincerely,

David H. Killoy, P.E., C.P. G.

Re: Abandonment & Discontinuance of Service

Dear Mr. Culliford:

Your letter of March 17, 1999, regarding the abandonment and discontinuance of service over a portion of Manchester and Lawrence Branch AB32 (Sub No. 87X) has been received and reviewed.

We know of no adverse effect that the proposed abandonment and discontinuance of service will have, and we do not object to the proposed action.

We would appreciate it if you would kindly change your M & L Branch Service List as enclosed, and also add the following state agencies: Department of Transportation - Bureau of Rail and Transit, Department of Resources and Economic Development - Trails Bureau, and the Fish and Game Department - Division of Law Enforcement.

Sincerely,

Michael Blake

Manchester and Lawrence Branch AB 32 (Sub No. 90)
Lawrence, Massachusetts and Salem, New Hampshire

April 20, 2001

Robert Culliford
Boston & Maine Corporation
Iron Horse Park
No. Billerica, MA 01862

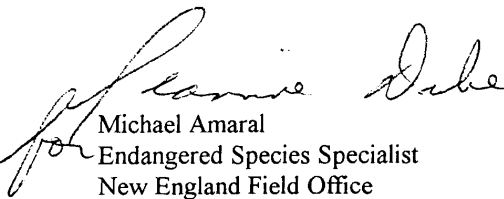

Dear Mr. Culliford:

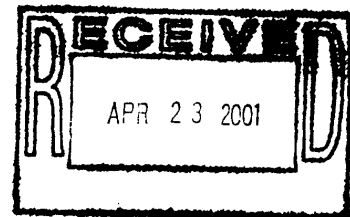

This responds to your March 15, 2001 letter requesting information on the presence of federally-listed and proposed, endangered or threatened species in relation to the abandonment of a 3.0-mile segment of railroad line known as the Manchester and Lawrence Branch in Lawrence, Massachusetts and Salem, New Hampshire. Our comments are provided in accordance with Section 7 of the Endangered Species Act (ESA) of 1973, as amended (16 U.S.C. 1531-1543).

Based on information currently available to us, no federally-listed or proposed threatened or endangered species under the jurisdiction of the U.S. Fish and Wildlife Service are known to occur in the project area.

Thank you for your cooperation. Please contact me at 603-223-2541 if we can be of further assistance. **Please make note of our new address, as shown above.**

**RE: Abandonment and Discontinuance of Service over the Manchester and Lawrence Branch,
AB 32 (Sub No. 90); MHC#28333**

Dear Mr. Culliford:

Staff at the Massachusetts Historical Commission have reviewed information you submitted concerning the proposed project referenced above. The railroad line traverses the Searles Tenney Nevins Local Historic District in the town of Methuen and lies adjacent to the Spiket Falls National Register Historic District, also in Methuen.

The MHC understands the proposed project involves the abandonment and discontinuance of service of an approximately 3 mile segment of the line between milepost 1.4, located in Lawrence, MA and milepost 4.4, located in Salem, NH. It is the understanding of the MHC that a permit for abandonment has been issued by the Surface Transportation Board and that no work is currently proposed for this segment of the line. Please notify the MHC if any future work is proposed for the line.

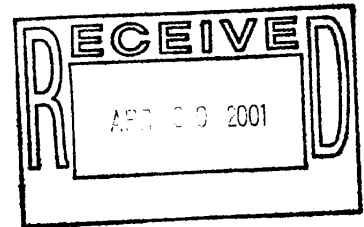

These comments are offered to assist in compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (36 CFR 800). Please do not hesitate to contact Debra Lavoie at this office should you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Ann M. Lattinville".

ATTN: Mr. Robert B. Culliford, Corporate Counsel
Iron Horse Park
North Billerica, Maine 01862

Dear Mr. Culliford:

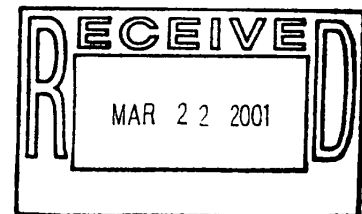

Reference your March 15, 2001, letter regarding the abandonment of the Manchester and Lawrence Branch rail line between Lawrence, Massachusetts and Salem, New Hampshire.

We are responding to you as the Department of Defense agency responsible for civil rail line matters. Our current Strategic Rail Corridor Network (STRACNET) connector from Lowell, Massachusetts, through Lowell Jct., Lawrence, and Haverhill, to Portsmouth, New Hampshire services the Portsmouth Naval Shipyard. Based on the information your office provided us, it appears the subject abandonment does not impact the designated STRACNET connector. As long as the proposed abandonment does not impact this STRACNET connector, we do not intend to oppose the abandonment.

If you have any questions, please call me at (757) 599-1163.

Sincerely,

Robert S. Korpanty, P.E.

**RE: ABANDONMENT/DISCONTINUANCE
OF SERVICE, MANCHESTER - LAWRENCE
BRANCH, AB 32 (Sub. No. 90), SALEM, NH**

In response to your recent request, the New Hampshire Department of Environmental Services ("DES") conducted research pertaining to the presence or absence of any significant environmental issues or concerns related to the subject proposed abandonment and discontinuance of service. Staff interviews and a search of pertinent DES databases were completed. The resulting maps have been enclosed with this letter for your reference.

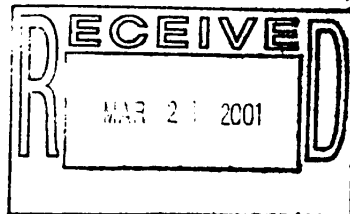

The search included databases that exhibited known groundwater contamination sites, underground and aboveground storage tank sites, and other regulated facilities or resources in the vicinity of the rail segment of concern. This multiple-features map was drawn at a 1:12,000 scale. A second review was completed to check for the proximity of prime wetlands to the railroad corridor. This map was drawn to a 1:24,000 scale.

DES findings showed that no known environmental features, facilities, or wetlands were found within, or immediately adjacent to the section of the Manchester to Lawrence Branch railroad right-of-way that could negatively affect the proposed abandonment and discontinuance of service along this rail segment. Therefore, DES has no objections to the proposed plans.

Thank you for the opportunity to comment. If there are questions, please contact me at (603) 271-3306 or by E-mail at tdrew@des.state.nh.us.

Sincerely,

Timothy W. Drew

RE: Abandonment and Discontinuance of Service over the
Manchester and Lawrence Branch AB 32 (Sub No. 90)

Comments: The subject abandonment is not applicable to
NH's Coastal Program and we decline to comment. We have
confirmed that NH's Dept of Transportation has received the
same input. DOT and other state agencies might offer
comments on this issue.

We appreciate the chance to learn about such events; we
would be interested if such a rail discontinuance or
abandonment were to occur in our *coastal* zone involving the
communities of: Seabrook, Hampton Falls, Hampton, North
Hampton, Rye, New Castle, Portsmouth, Newington,
Greenland, Stratham, Exeter, Newfields, Newmarket,
Durham, Madbury, Dover and Rollinsford.

Please continue to send such notices and we will determine if
there is a *coastal* impact. Additionally, you can replace the
name "Marcia Thunberg" with my information. I have recently
(Feb 2001) filled the post vacated by Marcia last summer.

Re: Abandonment and Discontinuance of Service Over the Manchester and Lawrence Branch
AB32 (Sub No. 90)

Dear Mr. Culliford:

The Office of State Planning (OSP) as the administering agency for the Intergovernmental Review Process (IRP) has no comment regarding the Abandonment and Discontinuance of Service over the Manchester and Lawrence Branch AB32 (Sub No. 90).

Other agencies on your service list will provide their comments.

Sincerely,

Dear Mr. Culliford:

This is a response concerning the Abandonment and Discontinuance of Service over a Portion of Manchester and Lawrence Branch AB 32 (Sub No. 88X). Our main concern in the abandonment of approximately 2.95 miles of railroad is impacts to the adjacent environment due to removal of rail and ties. Consideration should be given to minimizing erosion and sediment impacts to adjacent water bodies and wetlands during the removal process and insuring that the disturbed land is stabilized with proper vegetation and other needed Best Management Practices.

The Rockingham County Conservation Districts can be contacted if you need additional information on Best Management Practices to use to control erosion and sedimentation.

Sincerely;

A handwritten signature in cursive script that reads "Gerald J. Lang".

RE: ABANDONMENT AND DISCONTINUANCE
OVER LOWER PORTION OF MANCHESTER
AND LAWRENCE BRANCH AB 32 (Sub. No. 88X)

Dear Mr. Culliford:

In response to your recent request, the New Hampshire Department of Environmental Services ("DES") has completed its review of selected databases that overlay the portion of railroad right-of-way that is noted above. **Please note: The information provided by this transmittal does not represent a due diligence review by DES for the proposed action by Guilford Rail System.** It does however, provide you with a starting point at which to check your files and compare them with any known or suspected environmental issues that may have been associated with the subject section of rail right-of-way.

I have provided a GIS map and accompanying list of sites. From the map, you can see that there appears to be numerous sites for DES-regulated facilities clustered along a large portion of the section to be abandoned. They are comprised of Groundwater Hazard Inventory (GHWI) sites, Underground Storage Tanks (USTs) facilities, and hazardous waste generator (RCRA) sites. From the list provided, I would suggest that you scan the specific facilities which may be affected by the abandonment process. If a site or sites emerge of particular concern, please schedule a file review with Allisen Heath of our Oil Remediation and Compliance Bureau or with Ariel Parent of our Waste Management Division. Their telephone number is (603) 271-2900.

If you should need anything additional from me, please contact me at (603) 271-3306, or via E-mail at t_drew@des.state.nh.us. Thank you.

Sincerely,

Timothy W. Drew

Re: Abandonment & Discontinuance of Service

Dear Ms. Primeau:

Your facsimile of July 6, 1999, regarding the abandonment and discontinuance of service over the lower portion of Manchester and Lawrence Branch AB32 (Sub No. 88X) has been received and reviewed.

We know of no adverse effect that the proposed abandonment and discontinuance of service will have, and we do not object to the proposed action.

Sincerely,

Michael Blake
IGR Process Coordinator

RE: Abandonment and Discontinuance of Service over Lower Portion of Manchester and
Lawrence Branch
AB 32 (Sub. No. 88x)

Dear Mr. Culliford:

In accordance with the National Historic Preservation Act of 1966 (P.L. 89-655), as amended, and as implemented by regulations of the Federal Advisory Council on Historic Preservation ("36 CFR Part 800: Protection of Historic Properties"), the New Hampshire Division of Historical Resources/State Historic Preservation Office has reviewed the undertaking referenced above to identify potential effects on properties listed, or potentially eligible for listing, in the National Register of Historic Places.

We are responding to your letter of April 16, 1999 concerning the above mentioned project as well as the FAX with map sent by Pam Primeau on June 24, 1999

A draft historic context for New Hampshire railroads has been prepared by R. Stuart Wallace under contract to the NH Department of Transportation. It provides sufficient documentation to assume that this segment of Manchester and Lawrence Branch is not eligible for the National Register of Historic Places.

Therefore, based upon the information currently available, it has been determined that there are no known properties of architectural, historical, archaeological, engineering, or cultural significance within the area of the undertaking's potential impact and no identification or evaluative studies are recommended.

If any other resources are discovered or affected as a result of project planning or implementation, the Division of Historical Resources is to be consulted on the need for appropriate evaluative studies, determinations of National Register eligibility, and mitigative measures (redesign, resource protection, or data recovery) as required by federal law and regulations.

For the purpose of compliance with the Advisory Council on Historic Preservation procedures (36 CFR 800), I request that this determination be construed as a finding of "No Historic Properties Affected".

Sincerely,

Nancy C. Dutton

NOTICE OF INTENT TO DISCONTINUE RAIL SERVICE

Springfield Terminal Railway Company gives notice that on or about April 29, 2003, it intends to file with the Surface Transportation Board, Washington, D.C. 20423, a notice of exemption under 49 C.F.R. 1152 Subpart F - Exempt Abandonment's permitting the discontinuance of service on two portions of a line of railroad known as the Manchester and Lawrence Branch (the "Line") in Essex County, Massachusetts and Rockingham and Hillsborough Counties, New Hampshire. The first portion of the Line over which service is to be discontinued is approximately 6.2 miles in length, extends from railroad milepost 1.40 to milepost 7.6 and traverses through United States Postal Service Zip Codes 01840, 01841, 01843, 01844, and 03079 ("Segment 1"). The second portion of the Line over which service is to be discontinued is approximately 5.77 miles in length, extends from milepost 20.93 to milepost 26.70 and traverses through United States Postal Service Zip Codes 03101, 03103 and 03053 ("Segment 2"). The proceeding will be docketed as No. AB355 (Sub No. 28X).

The Board's Section of Environmental Analysis (SEA) will generally prepare an Environmental Assessment (EA), which will normally be available 25 days after the filing of the notice of exemption. Comments on environmental and energy matters should be filed no later than 15 days after the EA becomes available to the public and will be addressed in a Board decision. Interested persons may obtain a copy of the EA or make inquiries regarding environmental matters by writing to the Section of Environmental Analysis (SEA), Surface Transportation Board, Washington, DC 20423 or by calling that office at 202-927-4211.

Appropriate offers of financial assistance to continue rail service can be filed with the Board. Requests for environmental conditions, public use conditions, or rail banking/trails use also can be filed with the Board. An original and ten (10) copies of any pleading that raises matters other than environmental issues (such as trail use, public use, and offers of financial assistance) must be filed directly with the Board's Office of the Secretary, 1925 K Street, N.W., Washington, DC 20423 (See 49 C.F.R. 1104.1(a) and 1104.3(a)), and one copy must be served on applicant's representative (See 49 C.F.R. 1104.12(a)). Questions regarding offers of financial assistance, public use or trails use may be directed to the Board's Office of Congressional and Public Services at 202-565-1592. Copies of any comments or request for conditions should be served on:
