SURFACE TRANSPORTATION BOARD

STB Finance Docket No. 30186 (Sub-No. 3)

TONGUE RIVER RAILROAD COMPANY, INC. -CONSTRUCTION AND
OPERATION - WESTERN ALIGNMENT

I received your notice to the Parties of record dated October 3 and I am writing to ask you to make a change to my listing. The notice indicates that I represent the Lower Tongue River Protection Association. The group no longer exists and I should be listed as representing only myself. I noticed that several of the people that used to be Parties of Record were shown as non-parties now. I am concerned about this practice. Will the Surface Transportation Board take us off of the list as Parties of Record without our approval? I noticed that several of the agency people listed are no longer in those positions and other members listed are outdated. I hope that the Surface Transportation Board grants additional time to allow the list to be updated. I have talked with some of the people that are now listed as non-parties and they have not received the new information that Tongue River Railroad supplied the Surface Transportation Board that included comments from Governor Martz and Denny Rehberg. I sincerely hope that once the list is updated that all of the information regarding the new comments and the plan for additional studies for an updated EIS will be shared with the new parties of record.

Sincerely,

Mark Fix
