Electronic Workpapers

The enclosed CD-ROM also includes certain electronic workpaper files that were inadvertently omitted from AEPCO's Supplemental Rebuttal electronic workpapers for Parts III-D and III-F:

Updated Spot Maintenance Program1.xls
Hondo Valley (Folder with subfiles)

In addition, the CD-ROM enclosed with this filing contains the following corrected Supplemental Rebuttal electronic workpapers for Parts III-B and III-F:

bldgare3.xls
bldgcst2.xls
building sites.xls
IIIFTOTAL.xls
IIIFTOTAL SUPREB COMPARE.xls
Mobilization.xls
Yardcomputations.xls

The effect of the corrections is to increase yard site development costs (included in STB Account No. 3, "Grading") by approximately \$3.7 million. AEPCO's analysis indicates

that including the additional grading-related costs in the DCF model results in a very minor decrease in the percentage reduction (not exceeding 0.12%). In light of the small impact, AEPCO has not submitted replacement DCF exhibits and associated electronic workpapers, but would be pleased to do so upon the Board's request.

Respectfully submitted,
