Re: San Pedro Railroad Operating Company, LLC
Abandonment Exemption In Cochise County, AZ
STB Docket No. AB-441 (SUB-NO 4X)

Dear Mr. Williams:

Enclosed please find the original signature pages for the Verified Statement of Mark Juszli, which was filed yesterday with the "Statement Of Chemical Lime Company In Opposition To San Pedro Railroad Operating Company, LLC's Petition For Exemption" in the above-captioned docket. Please substitute these original pages for the facsimile copies submitted yesterday.

Thank you for your attention to this matter.

Sincerely

Melissa E. Maxwell

Enclosure

ENTERED
Office of Proceedings
JUL 18 2005
Part of
Public Record

Chemical Lime advised SPROC of 30,000 to 40,000 total tons per year of combined coal and coke requirements prior to restarting the Douglas Plant, and SPROC fully understood the economics of service to Chemical Lime, as Mr. Parkinson acknowledged in the Progressive Railroading article in late 2004 (Attachment A at Pages 2 and 3). If the line is abandoned and Chemical Lime is unable to develop a Deming transload facility or effective backhauls from the Douglas Plant to Colorado and Wyoming, Chemical Lime's losses in 2005 alone are estimated to be:

1.	Cash investment in rail spur improvements	\$ 32,118
2.	Nine cash payments to SPROC of \$2,500	\$ 22,500
3.	6/15 to 12/31 transportation cost of coal	\$449,670
4.	6/15 to 12/31 transportation cost of coke	\$403,492
	2005 Total:	\$907,780

Of the four segments SPROC proposes to abandon -- Curtiss to Charleston, Charleston to Paul Spur, Paul Spur to Douglas, and Bisbee to Bisbee Junction -- Chemical Lime is only affected by the Curtiss to Charleston and Charleston to Paul Spur segments, because the plant is at Paul Spur. Chemical Lime does not object to SPROC's abandoning the Bisbee-Bisbee Junction and Paul Spur-Douglas segments.
