JOINT PETITION TO STAY EXEMPTIONS

Canadian National Railway Company (“CN”), along with the parties in the above-entitled proceedings, Kansas City Southern (“KCS”), The Kansas City Southern Railway Company (“KCSR”), Meridian Speedway, LLC (“MSLLC”), and Norfolk Southern Railway Company (“NSR”), jointly request that the Board stay the exemptions in these proceedings for 30 days, or until February 23, 2006, to enable KCS, NSR, and CN to attempt to negotiate a mutually beneficial agreement addressing the operational impacts of the underlying transactions on CN’s line in Jackson, MS.

On January 17, 2006, KCS, KCSR, MSLLC, and NSR filed a series of notices of exemptions in these proceedings, as more fully described therein, for authority to implement a joint venture between KCS and Norfolk Southern Corporation (the holding company for NSR) involving the transfer to MSLLC, a newly formed entity, of the Meridian, MS-Shreveport, LA portion of KCSR's "Meridian Speedway" line between Meridian, MS and Dallas, TX and the establishment of underlying operations. The purpose of the joint venture is to facilitate capital investments that will upgrade the line and expand its capacity and thereby permit the parties to carry increased traffic and to enhance safe operations over the Speedway, an important East-West route linking the Southwest and the Southeast. Absent further action by the Board, the exemptions become effective tomorrow, January 24, 2006.

The Meridian-Shreveport line crosses CN's North-South mainline between Chicago and New Orleans at Jackson, MS, and current KCSR operations and those contemplated by the embraced notices of exemption must necessarily move over a fourth-tenths of a mile segment of that mainline in Jackson. As described in the filings, KCSR operates over the CN track pursuant to a 1986 trackage rights agreement between MidSouth Corporation, subsequently acquired by KCS, and Illinois Central, CN's subsidiary. It is the intent of KCS, KCSR, and NSR to seek CN's consent for assignment of the KCSR rights to the joint venture and for MSLLC to then provide for operations, including over the CN segment, at increased traffic levels as the line is upgraded.

CN has no objection to the basic proposals of KCS and NSR to enhance capacity, improve safe operations, and increase their business, and it recognizes the potential benefits that may be realized through the transactions. However, the CN track at issue, used by both CN and KCSR, already handles approximately 50 trains per day.

NSR and KCS have consulted with CN about the proposed transaction, and they have expressed a willingness to work with CN to address issues relating to the joint use of this four-tenths of a mile line. KCS, KCSR, MSLLC, NSR, and CN believe that an agreement can be reached that addresses responsibilities, obligations, and procedures for dealing with operational problems, including further capacity concerns, that may arise in the handling of additional traffic that KCS and NSR hope to move over the Meridian Speedway. Accordingly, KCS, KCSR, MSLLC, NSR and CN jointly request that the Board stay the effectiveness of the exemptions in these proceedings for 30 days to afford the parties time to attempt to reach such an agreement. Moreover, should the parties – who already have plans to meet on January 24, 2006, to continue their discussions on this matter – reach an agreement in less than 30 days, they will promptly notify the Board.

WHEREFORE, for the reasons set forth above, the Board should stay the exemptions of the transactions that are the subjects of the notices of exemption in STB Finance Docket Nos. 34821, 34822, and 34823 until February 23, 2006.
