Surface Transportation Board
Attn: STB Ex Parte No. 661
1925 K Street, N.W.
Washington, DC 20423-0001

Please accept this letter as our written intent to speak before the Board on this matter.

We request five minutes to discuss how the Board might adjust the reporting requirements associated with the Public 1% Waybill File in order to provide rail customers with better information on the carriers' revenues collected through the application of fuel surcharges.

Respectfully submitted,

Michael R. Behe
