SUPPLEMENT TO ENVIRONMENTAL/HISTORIC REPORT

On May 8, 2007, Shannon Transport, Inc. ("ST") filed a joint Environmental / Historic Report together with Pittsburg & Shawmut Railroad, LLC ("PSR") which proposes to abandon a line of railroad that connects to the lines that ST seeks to abandon, and with Buffalo & Pittsburgh Railroad, Inc. ("BPRR") which proposes to discontinue operations over both the ST and PSR lines. ST is filing this Supplement in order make it easier for the public to distinguish between the ST lines and the PSR line. Further, this Supplement will discuss how the comments that were received relate to the ST lines.¹

ST is seeking authority to abandon (1) the line of railroad that extends from milepost 6.0 to the end of track at milepost 4.0, all at or near Lawsonham, and (2) the connecting former Sligo Running Track which runs from milepost 0.0 near Lawsonham to milepost 10.5 at Sligo (together, the "ST Lines"), a total distance of 12.5 miles. The ST Lines are all located in Clarion County, PA. The ST Lines traverse through United States Postal ZIP Codes 16248 and 16255. A map of the ST Lines, as well the related topographic maps, are attached hereto as Exhibit 1.

Environmental Supplement

Of the responses attached as Exhibit B to the Environmental/Historic Report, the following relate, or potentially relate, to the ST Lines:

Pennsylvania Department of Environmental Protection (Northwest Regional Office), March 1, 2007, describing potential requirements for watershed management and handling of rail material waste

Pennsylvania Department of Conservation and Natural Resources, March 12, 2007, expressing support for trail use

¹ PSR will separately file its own Supplement to the Environmental/Historic Report with respect to the line that PSR owns. BPRR, as the operator, will not file a supplement.

Pennsylvania Department of Environmental Protection (Coastal Resources Management Program), February 16, 2007, confirming the ST Lines are not within a coastal zone

USDA Natural Resources Conservation Service (PA State Conservationist), March 5, 2007, confirming that no federally-designated farmlands exist in the proposed project area

Pennsylvania Fish and Boat Commission (Northcentral Region), March 12, 2007, requesting that any salvage operations avoid run-off and erosion, and requesting improved public access to its property along Red Bank Creek (adjacent to the ST Line between milepost 4.0 and milepost 6.0 near Lawsonham)

ST incorporates the responses to these comments set forth in the Environmental/Historic Report.

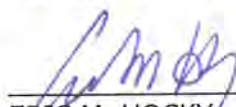

Since the filing of the Environmental/Historic Report, ST has had discussions with a trail group that has expressed interest in acquiring the line between milepost 4.0 and milepost 6.0, and possibly the former Sligo Running Track as well.

Historic Supplement

The structures 50 years old or older that are located along the ST Lines are separately identified on Exhibit 2. Photographs of the structures identified by milepost are attached as Exhibit H to the Environmental/Historic.

ST will provide additional clarification to the Board and to any party that requests further information to determine the environmental or historic effects of the proposed abandonment of the ST Lines.

Respectfully submitted,

ERIC M. HOCKY
