R.J. CORMAN RAILROAD COMPANY/CENTRAL KENTUCKY LINES, LLC.
-- TRACKAGE RIGHTS --CSX TRANSPORTATION, INC.

AMENDMENT TO
VERIFIED NOTICE OF EXEMPTION

On March 25, 2008, R.J. Corman Railroad Company/Central Kentucky Lines ("RJCC") filed its Verified Notice of Exemption in this proceeding for exemption of limited overhead trackage rights over two lines of railroad of CSX Transportation, Inc. ("CSXT"). The first line extends about 35 miles from Winchester to Berea, KY, and the second extends about 11 miles from Louisville to Anchorage, KY.

To avoid any confusion over the regulatory antecedents or nature of this proceeding, RJCC will withdraw one of the segments from this notice and file a separate notice¹ with respect to that segment.

Accordingly, RJCC hereby withdraws from this proceeding its trackage rights over the 35-mile line between Winchester and Berea, KY and limits this notice to the line extending from the point of the parties' connection at CSXT milepost T1.8 in Louisville, KY to another point of connection at CSXT milepost 12.49 near Anchorage, KY, a distance of about 10.75 miles, all in Jefferson County, KY. Those trackage rights are incidental to RJCC's lease of CSXT's Water Street Lead, and were authorized in *R.J. Corman Railroad Property, LLC—Lease*

¹ RJCC will file a new Verified Notice of Exemption with respect to the Winchester to Berea trackage rights in *CSX Transportation, Inc.—Trackage Rights Exemption—R.J. Corman Railroad Company/Central Kentucky Lines*, Finance Doc. No. 34420 (Sub-No. 1).

Exemption—Line of CSX Transportation, Inc., STB Finance Doc. No. 34625 (served March 4, 2005). This trackage connects RJCC's Water Street Lead to its Central Kentucky Lines.

The Description of the Proposed Transaction (pp. 2-3) is amended to provide:

In 2005, CSXT granted to RJCC limited overhead trackage rights over CSXT tracks between the end of CSXT's "Water Street Lead" at CSXT milepost T1.8 and CSXT milepost 12.49 at HK Tower, a distance of about 10.75 miles, all in or near Louisville, Kentucky. The parties have agreed to relax the restrictions in this trackage rights agreement to permit RJCC to move carloads of cement and general merchandise cars between its Water Street Lead and its main line at Anchorage.

An amended map and an amended summary notice are attached hereto as Amended Exhibits A and C.

Amendment of existing trackage rights agreements to allow RJCC to move carloads of cement and general merchandise cars over CSXT tracks between CSXT milepost T1.8 and CSXT milepost 12.49 at HK Tower, a distance of about 10.75 miles, qualifies for exemption from the requirements of 49 U.S.C § 11343 under 49 C.F.R. § 1180.2(d)(7).

Respectfully submitted,
