CSX CORPORATION

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 8. Employee Benefit Plans, continued

Medicare Prescription Drug, Improvement and Modernization Act of 2003

As required by the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the "Act"), CSX has determined that its medical plan's prescription drug benefit qualifies as actuarially equivalent to the benefit that would be paid under the Act. CSX has received \$4 million in tax free federal reimbursement for prescription drug claims in both 2007 and 2006.

Other Plans

Under collective bargaining agreements, the Company participates in a multi-employer benefit plan, which provides certain post-retirement health care and life insurance benefits to eligible contract employees. Premiums under this plan are expensed as incurred and amounted to \$31 million, \$30 million and \$30 million in 2007, 2006 and 2005, respectively.

The Company maintains savings plans for virtually all full-time salaried employees and certain employees covered by collective bargaining agreements. Expense associated with these plans was \$24 million, \$18 million and \$19 million for 2007, 2006 and 2005, respectively. The increase in 2007 is primarily driven by new labor agreements that increased the Company's 401(k) match for certain plans.

Early Redemption of Long-term Debt

In 2007, CSX called \$150 million of notes due in 2032. CSX recognized a \$10 million reduction to Other Income for an early redemption premium and the write-off of debt issuance costs related to the \$150 million of note repayments.

In November 2007, NS entered into a \$500 million receivables securitization facility under which NSR sells substantially all of its eligible third-party receivables to an NS subsidiary, which in turn may transfer beneficial interests in the receivables to various commercial paper vehicles. Amounts received under the facility are accounted for as borrowings. The facility has a 364-day term; however, NS intends to refinance these borrowings by issuing long-term debt, which is supported by its \$1 billion credit agreement (see below). Accordingly, amounts outstanding are included in the line item “Long-term debt” in the Consolidated Balance Sheet. At Dec. 31, 2007, the amount of receivables included in “Accounts receivable – net” serving as collateral for these borrowings was \$778 million.

In May 2005, NS issued \$717 million of unsecured notes (\$350 million at 5.64% due 2029 and \$367 million at 5.59% due 2025) and paid \$218 million of premium in exchange for \$717 million of its previously issued unsecured notes (\$350 million at 7.8% due 2027, \$200 million at 7.25% due 2031, and \$167 million at 9.0% due 2021). The \$218 million cash premium payment is reflected as a reduction of debt in the Consolidated Balance Sheet and Statement of Cash Flows and is included in “Discounts and premiums, net.” The premium is being amortized as additional interest expense over the terms of the new debt, resulting in effective interest rates of 8.7% for the 2029 notes and 9.0% for the 2025 notes.

“Discounts and premiums, net” at Dec. 31, 2007 and 2006, includes \$126 million and \$130 million, respectively, related to \$314 million face amount of 9.75% notes due in 2020 and \$138 million face amount of 7.875% notes due 2043, which is being amortized as a reduction of interest expense over the terms of the notes, resulting in effective interest rates of 6.0% and 6.2%, respectively.

through 1994, which may be disputed by the IRS. The IRS has completed its examinations and issued notices of deficiency for tax years 1995 through 2004, and we are in different stages of the IRS appeals process for these years. The IRS is examining our tax returns for tax years 2005 and 2006. In the third quarter of 2007, we believe that we reached an agreement in principle with the IRS to resolve all of the issues, except interest, related to tax years 1995 through 1998, including the previously reported dispute over certain donations of property. We anticipate signing a closing agreement in 2008. Once formalized, we anticipate that this agreement will result in an immaterial reduction of income tax expense.

Upon resolution of the federal income tax examinations described above, we will report any changes to our taxable income to state and local taxing authorities in compliance with state and local requirements. Additionally, several state taxing authorities are currently examining our state income tax returns for tax years 2001 through 2005.

In the third quarter of 2007, the State of Illinois enacted new tax legislation that changed how we determine the amount of our income subject to Illinois tax. This legislation caused an increase to our deferred tax expense by \$27 million in the third quarter. In addition, because the legislation reduced uncertainty about determining future income subject to Illinois tax, \$41 million pre-tax (\$26 million after-tax) of deferred taxes are no longer considered part of unrecognized tax benefits. In January of 2008, Illinois enacted technical corrections legislation that made additional changes in how we determine the amount of our income subject to Illinois tax. This technical corrections legislation will result in a reduction of deferred tax expense of approximately \$14 million in the first quarter of 2008.

We expect that the amount of unrecognized tax benefits will change significantly during the next 12 months. Of the \$161 million balance at December 31, 2007, \$140 million is classified as current in the Consolidated Statement of Financial Position, primarily due to the anticipated settlement for tax years 1995 through 1998 described above. It is also reasonably possible that we may resolve the interest claims for 1986 through 1994 described above, which would likely result in an immaterial change to unrecognized tax benefits.

5. Debt

Total debt as of December 31, 2007 and 2006, net of interest rate swaps designated as hedges, is summarized below:

<i>Millions of Dollars</i>	<i>2007</i>	<i>2006</i>
