Good morning Josh. Attached is a pdf file showing the new location of Comm Tower 2. Note that it has been moved due west of the original tower location and is now outside of the roadless area.

Thank you, Kevin. Do you have an update on the revised preliminary communication tower location that we discussed the other day?

Subject: UBRy Final WOUS Baseline Report uploaded to SharePoint

Josh,

We've uploaded the Final WOUS Baseline Report to the SharePoint site. As we've discussed, the revised report and corresponding revised GIS polygon data incorporate additional delineation data for Wells Draw that we realized was missing through recent data review. We've also uploaded the GIS data to the SharePoint site. The total acreage of aquatic resources within the Wells Draw study area increased from 243.56 to 254.91 acres.

Let us know if you have any problems accessing the files.

Kevin
